

A partnership giving you the right tool for your business

### The UFG and AASP National partnership

This established partnership brings decades of experience to the mechanical and collision repair business. UFG has been in the insurance industry since 1946, while AASP National began in 1999 and currently represents over 8,000 automotive professionals. Together these organizations deliver simple solutions for your complex insurance needs.

### Just the tool you need

Join AASP National and don't forget to add the AASP National/UFG Insurance Program to your tool box. It's the right tool for your business, bringing with it:

- A special premium discount, and
- All-eligible-lines safety group dividend,
- Exclusive coverage for AASP National members.

# The right tool for your business

## What's in it for your shop?

As a garage owner and member of AASP National, you gain not only an insurance program designed specifically for your garage-oriented business, but the following unique benefits, as well:

### Special premium discount

UFG and AASP National agree that its members are dedicated to their industry and their customers. They want to reward these shop owners with special pricing, unavailable to non-members of AASP National.

AASP National/UFG's Insurance Program is the right tool to access exclusive insurance coverage with a special premium discount, and an all-eligible-lines safety group dividend.

### Safety group dividend

Your efforts to maintain a safe shop should be rewarded. UFG offers a safety group dividend on all-eligible lines of insurance we write for AASP National members in states where allowed. The AASP National members' loss ratio will determine the amount of the dividend paid.

### Exclusive coverage

AASP National recommends the special insurance program because they care about the success of their members. While the coverages have been specially designed for mechanical and collision repair shops, UFG understands that each shop may have unique needs. Working with our agent partners, we can ensure that each garage has the coverage they need to protect their exposures.

### Need more details?
